Office of Economic and Workforce Development

Building Tomorrow's Workforce Today

Initiative Programs

The "Green Sector" is a cluster of industries that support local green jobs development, including: green construction, transportation, landscaping, urban forestry, recycling-reuse and solar energy.

TGSF Initiative is a network of employment and training programs coordinated by OEWD that are responsive to the workforce development needs of these industries.

Green Building Construction Program

Provider: Asian Neighborhood Design (AND)
Services: Contextualized General Construction training with an emphasis on Green building practices and Solar Installation
Population: Young adults (18 years old and over)
Contact: Jamie Brewster, 415 575-0423 x201
jbrewster@and.net www.andnet.org
